

10 November 1965

MEMORANDUM FOR THE RECORD

Morning Meeting of 10 November 1965

25X1 [redacted] of OCI gave a background briefing on Burma.

DD/I showed DCI examples of CGS requirement booklets covering scientific subjects.

DD/I reported on the discussion he had yesterday with Admiral Harlfinger of DIA. The Admiral noted that the U. S. military attache system is under strong budgetary attack. DD/I said he would send a memorandum to DD/P on this.

DD/I reported that the State Department is preparing for a diplomatic round of meetings in Washington at the end of this month [redacted]

25X1

DD/I tabled a copy of the monthly report prepared by OCR dealing with the public appearances of key Soviet leaders.

DD/I noted that NSA had recently begun production and dissemination of a daily SIGINT summary. This led to a discussion of the implications of General Carter's desires that NSA play a greater role in substantive matters.

R. J. Smith reported on Sukarno's speech today in which he alleges bribery and subversion by the West.

DDCI questioned the status of the Filipino elections. The latest we have is in accordance with the news summary this morning to the effect that Marcos is in the lead.

Kent reported completion yesterday by USIB representatives of the draft of the annual Soviet air defense estimate which will be before USIB next week. Some issues remain. It was agreed that the Agency experts would meet with DCI to discuss the Agency view that certain key installations are long-range SAM's.

-3-

DD/S&T reported that he and Houston had had a successful meeting [redacted] DD/S&T asked for time to brief the DCI and get his guidance.

25X1

ADDP noted that DD/P will return from Europe this evening.

DDCI reported on a conversation with McGeorge Bundy yesterday concerning OXCART. Bundy's view is that OXCART has been accepted as an item for the U. S. intelligence inventory but it remains to be determined whether other collection means are so inadequate that OXCART must be employed. This leads to the basic question as to the specific areas in which OXCART would operate.

DCI noted that he had talked with Secretary Vance yesterday about [redacted] He had suggested that Vance undertake an inquiry of the status of this program.

ACTIONS:

1. DCI noted that there had been a power failure in one part of the headquarters building last night and that the automatic switch to the stand-by generator had not worked. He asked DD/S to look into this and ensure that there is periodic testing of the automatic switch. (DD/S -- status report by 12 November) *DONE*

2. DCI asked DD/S&T to move ahead with plans to have Agency officers briefed on the R&D programs of the various military services. (DD/S&T -- status report by 19 November) *DONE*

3. DCI suggested consideration of a plan to invite preparation by the services of an annual list of technological subjects on which they would like to have information and which could be used in the development of the Agency collection guidance. (DD/S&T in consultation with DD/I -- status report by 1 December)
